PROFILE

Frontend Developer with strong skills in HTML, CSS, JavaScript, and responsive design. Built multiple personal projects like an Amazon UI Clone, showcasing clean coding and UI development. Commerce graduate with a good understanding of business needs and user-focused design. Passionate about learning and building impactful web experiences.

EDUCATION

Indira Gandhi National Open University   *Delhi, India*
Bachelor of Commerce   2020 – 2024

SKILLS

Technical: HTML5, CC3, JavaScript, Bootstrap, PHP, WordPress.
Tools: Git, GitHub, VS Code, Figma (for UI design)

CERTIFICATIONS

- Web Development – April'25 *(link)*

EXPERIENCE

Frontend Developer (Personal Projects)   July 2024– Present
Started with limited knowledge and gradually built real-world frontend skills through practice, debugging, and learning from online resources. Took on challenging UI projects to strengthen problem-solving and web development abilities. Built responsive, functional UIs with a focus on user experience and clean code.

- Developed a complete Amazon UI Clone using HTML, CSS, and JavaScript.
- Faced and solved layout and responsiveness issues through hands-on learning.
- Used Git & GitHub for version control and hosted the live project on GitHub Pages.
- Focused on mobile-first design, browser compatibility, and clean project structure.

PROJECTS

Amazon UI Clone   10/24 – 01/25
HTML5, CSS3, JavaScript, GitHub Pages

- Developed a fully responsive UI clone of Amazon's core pages including homepage, product listing, cart, sign-in, and sign-up pages.
- Implemented clean layout design with reusable components and intuitive navigation.
- Used JavaScript for dynamic interactions like form handling and product detail linking.
- Deployed using GitHub Pages and maintained source code with Git version control.

Personal Portfolio website
HTML5, CSS3, JavaScript, Responsive Design   05/25 – 06/25

- Designed and developed a modern personal portfolio to showcase projects and skills.
- Implemented smooth scrolling, section-based layout, and responsive design for mobile and desktop views.
- Integrated GitHub project links and contact form to enhance interactivity.
- Focused on clean UI, consistent branding, and accessibility.
